GRO. D. PRENTICE. Address. OLIVER LUCAS, Local Editor and Reporter. TUESDAY, AUGUST 12, 1862.

The quota of Kenlucky, under the call for three hundred thousand volunteers for three years or the war, will soon be recruited, ont resort to drafting. While other States are congratulating themselves on the patriotic sery repose, amongst them Dr. Chambers, eaergy of their citizens, we point with pride to saying he owed it to himself and his command, siveness which has filled her regiments in so the night they left Richmond, and sleep on very short a time.

MEETING OF CIRCUIT JUDGES. - It has heen suggested to ue that it might contribute to the better working of our Circuit Court system, especially in the administration of the criminal and penal laws, if the Circuit Judges elect were to meet in conference at Fraokfort during the coming session of the Legislature, and submit to thet body such changes as their wisdom and experience may show to he necessury. As the session will doubtless be a short one, if such a meeting is to be held, the carlier it can be convened the better, and we have therefore been requested to name Wednesday evening, the 20th inst., as a suitable time. We hope it will suit the convenience of all tho new Circuit Judges to meet at the time and place indicated, and that much good may result from thoir deliberations.

Recruiting was very active in our city yesterday, and strong, intelligent, and active young men seem determined that Kentucky sha'l escape the implied odium which would he at sched to a draft for completing regiments of volunteers. Let the good work go on vigorously. We cenoot have too many soldiers; indeed, all the nvailable force of the loyal States shou'd be organized as a reserve, so that when the grand prmies in the field push their victorious cagles into the insurgent States, they may not be impeded by the necessity of holding their base, lines and keeping communications, but here these he received orders to turn over his cemthings done by portions of the reserve, detailed mand and go to Lexington, which he did by shiding people, and lovere of peece and harmony, and sent forward for that purpose. The gigant cettirts which the country is now putting seven in the morning, organized a column of even unto death. forth, end the evident determination of the five hundred and ninety men, and left that people to crush out the rebellion, will do more night. He saw nothing more nor did he hear efforts of the most skilful diplomacy. When the people of Europe see how terribly in eart are our loyal masses, and look at the subime spectacle of freemen volunteering by the they will hostuw long before they will dare o insult the United States by any officious intermeddling in their domestic affairs. It will from pointed time. Push on the enlistments, then gorously until the close. Let there be no relaxation in the presont efforts, but lot them rathor be increased under the glorious impulse

The assassination of General Robert McCook was an alrocious act of barbarity and a deliberately planned murder. Wo nope the untimely fate of the gullant McCook will serve as a warning to other officers never to trust themselves beyond the protection of the main hody of their commands unless some imperative necessity should require the expesure. A soldier's life is his country's property and he has no right to imperil it uselessly.

Why is it that the city of Lonisvillo cen get all the effices in the militery of Kentneky when ha has done comparatively nothing in the way fraising men? COUNTRY. of raising men?

Tho assertion contained in this query i untrno, and its insinuation unjust. Lonisville has no more than her proper share of officers and has given her full proportion of privates. The 21 and 5th regiments of infantry were raised by Col. Woodruff and Gon. Rousseau at a time when the above question would not have been propounded. Col. Curron Pope was early in the field recruiting the 15th, and Colonels Pennebaker and Boone started the good work as soon as their legislative duties would permit. Col. Bayles, of the 4th cavalry, also was among the first to offer his services to his conniry, In the new regiments which are now raising, Col. Tevis is the only citizen of Louis we know others who would gladly receive eppointments if they could be procured. The anxiety of pairiotic men to serve the nation with applause by the telegraph.
